Maggie Sarfo - Akashic Records Consultant

I am a certified Akashic Records and Purpose Dev't Consultant for individuals looking to access their highest potential.

An Akashic Records consultation gives you access to your soul's records to address and heal challenged aspects of you that prevent you from living to the fullest - life, career/business, relationships, financial etc. We eliminate all guess work; delving into past lives, present and future evolutionary paths.

Business Akashic records consultations are also available.

After a successful 15-year corporate career, I woke up one morning to the sound of 'Akasha' ringing in my ears. This led me to discover the Akashic Records as a tool to unlock blocks and heal myself and others; so we can move forward in confidence. One of the most powerful tools available on our planet now.

"This is such a gentle and powerful way to move forward in your life and I would highly recommend working with Maggie to feel a great sense of knowing and peace." - I Gordon
